SUMMARY

Full-Stack Web Developer focused on business impact: translate requirements into scalable systems, fast interfaces, and reliable deployments. Strong in Next.js/React, Node/Express, PostgreSQL/Prisma, Strapi, Docker, GitHub Actions, and production monitoring.

SKILLS

Technical : Next.js, React, Vue, Nuxt, TypeScript, Tailwind • Node/Express, REST/GraphQL, Auth & RBAC, Caching • PostgreSQL/Prisma (MySQL, MongoDB) • Strapi, n8n • Docker, GitHub Actions (CI/CD), Linux/Nginx/SSL • Prometheus, Grafana • Jest (unit/integration), basic E2E, Postman • Git/GitHub/GitLab, ERD, Figma • Familiar: Laravel

Soft : Problem Solving • System Thinking • Code Quality • Performance & Reliability • Security • Ownership • Technical Communication • Collaboration • Product Sense • Estimation • Learning Agility • Mentorship • Customer Empathy • Incident Response

EDUCATION

Telkom University - Bandung, Indonesia Aug 2020 - Dec 2024
Bachelor of Informatics, (GPA: 3.32 / 4.00)

WORK AND INTERNSHIP EXPERIENCE

- Skillstory / Internship** Bandung, Indonesia
Fullstack Web Developer Jul 2025 – Oct 2025
 - Implemented Google OAuth & SMTP email verification; fixed 7+ critical issues (auth/session refresh, month filter) to stabilize core flows and reduce login/auth incidents.
 - Led frontend redesign/refactor; added dynamic required-field validation (Transactions/Categories) to improve data integrity and cut submission errors.
 - Set up deployments for Skillstory & Kesflo using Docker/Nginx and GitHub Actions, enabling predictable releases and quick rollbacks.
 - Researched/configured n8n for internal workflows; integrated Terms & Conditions and evaluated Mayar for SaaS monetization.
- PT. Techno Infinity / Internship** Bandung, Indonesia
Mobile Developer Jul 2023 – Sep 2023
 - Rebuilt Flutter UI with responsive layouts & clearer flows; 15% faster initial load via lazy loading and asset optimization.
 - Componentized views and standardized theming to improve readability and delivery speed; aligned with Design/Backend on API contracts & edge cases with clear integration notes.

SELECTED PROJECTS

- E-commerce Website - Isoneday Brand:**
Built the platform end-to-end (Next.js, Node/Express, PostgreSQL/Prisma) with modular architecture, secure checkout via Midtrans, real-time chat (Socket.io), bot protection, CI/CD, and observability (Docker, Prometheus/Grafana).
Result: faster releases, fewer transaction errors, and a checkout flow that stays stable under real traffic.
- PoS Ferdila Garage:**
Digitized workshop cashier ops (Next.js/React, Node/Express, PostgreSQL/Prisma) with RBAC, rigorous input validation, and real-time dashboards for revenue, inventory, and mechanic fees.
Result: shorter checkout time, fewer cashier mistakes, and quicker day-to-day decisions.

• **Cash Flow Management:**

Defined clean domain models, multi-entity cash-flow tracking, reporting, Mayar licensing/payments, and consistent release pipelines.

Result: clearer financial visibility, faster onboarding, and a foundation ready to scale.

• **SkillStory LandingPage:**

Modernized UI/UX (Nuxt) and re-modeled Strapi (auto-grid TikTok, Gallery, Client Logos, Running Schedule), then deployed on VPS with Nginx/SSL hardening.

Result: faster content publishing without a dev loop, stronger brand credibility, and a content platform ready for upcoming campaigns.

CERTIFICATION AND TRAINING

• Fullstack Web Developer Bootcamp - <i>LuarSekolah</i>	May 2025 – Oct 2025
React/Next, Node/Express, PostgreSQL, CI/CD, Docker, testing, logging, automation, deployment, git.	
• Frontend Developer (React) Certification - <i>HackerRank</i>	Dec 2024
Component architecture, state management, performance optimization.	
• Software Engineer Intern Certification - <i>HackerRank</i>	Dec 2024
Problem solving, debugging, and building scalable web features.	
• React (Basic) Certification - <i>HackerRank</i>	Nov 2024
JSX, hooks, lifecycle; semantic HTML, accessibility, and basic SEO.	

ORGANIZATIONAL AND COMMITTEE EXPERIENCE

KMNU Telkom University - <i>Head of Social Media and Graphic Design</i>	May 2022 – May 2023
Drove 30% engagement via structured content & analytics; standardized design assets and publication workflow.	
FORTTRAN HIMA IF Telkom University - <i>Member of Evaluation Division</i>	Sep 2022 – Nov 2022
Criteria-based reviews, clearer rubrics, and faster evaluation cycles.	
PKKMB Universitas Telkom 2021 - <i>Member of Liaison Officer Division</i>	Sep 2021
Supported 100+ freshmen; ensured communication, schedule, and logistics ran smoothly.
